

No more pesticides! Help wildlife in your school

Organic bird feed helps birds to thrive!

Wild flowers provide homes and food for bees and other insects.

Keep paths and the playground free of unwanted weeds by hand weeding/brushing or hot foam. Never use pesticides on paths or the playground!

Why not start a gardening/vegetable club and help wildlife. Never use pesticides when gardening!

Weeds are good for bees and insects too!

Make a bee hotel for bees to live in.

Don't cut the grass too often and never use pesticides on the grass!
